

Alliance

Making deployment easier with new DPA features

Hynek Syrovátka
CTO, IQRF Alliance

Features :

- > Standardization
- > IQRF Repository
- > Smart Connect™
- > Service Channels
- > Mixing STD and LP
- > Autonetwork

Standardization:

- > IQRF Standards
- > Compatibility / Interoperability
- > Simplicity

> REST API

> Objects

> Drivers

IQRF Repository:

Smart Connect™:

> Buttonless

> ~~Coordinator proximity~~

> Low power

> QR Code & NFC

> Secure

Service Channels:

> No pre-configuration for bonding

> +50 kHz => no interference

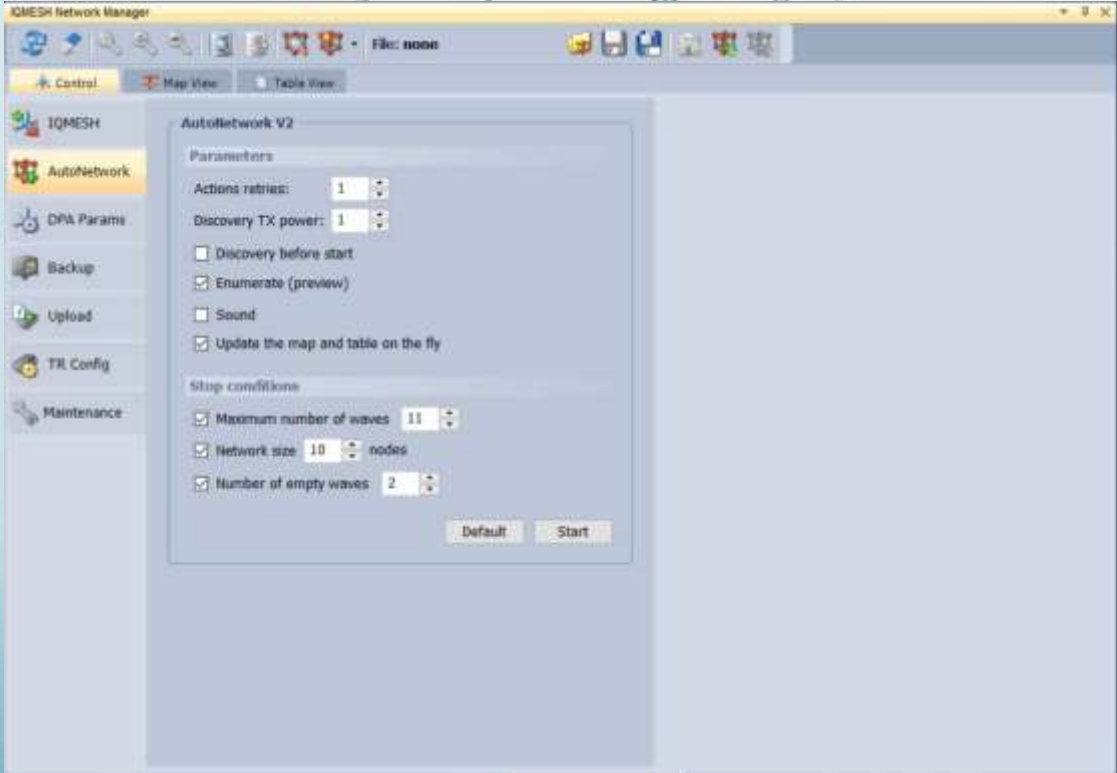

Mixing STD and LP:

- > STD or STD+LP network
- > Configured at Coordinator
- > Determined by DPA plug-in at Node

Autonetwork V2:

- > Built in OS & DPA
- > No code needed
- > No pre-configuration
- > [Smart Connect, 4B FRC, virtual FRC]
- > Sample code + IDE

Thank you!
